

**CREATIVE BUSINESS  
COMPANY**

---

We are a company that has grown in the digital solution industry. We love what we do and we want to become an industry leader. We are Xhai Studios.

[www.xhaistudios.com](http://www.xhaistudios.com)

# COMPANY

Let's bring your ideas to life

Xhai Studios talents, hailing from various parts of the world who are passionately working on games, apps and web applications development.

We produce high quality products that are highly efficient, solve problems and achieve certain goals and objectives. The main forces in our project development are creativity, passion and innovation; qualities that reflect on and are the driving components of our project development cycle.

## WHO WE ARE

Xhai Studios is an Information Technology/video game development company. On the video game side, our team produces trendy and edgy games as well as catering to companies that would like us to produce video games for their brands. In addition to our passion for developing unique video games, Xhai Studios also possesses the capacity to build a whole range of Information Technology products for our clients. Our clients can also come to our office to consult us in order to attain maximum creativity and innovation for the products that they envision.

# COMPANY VALUES

Our value is to create professional work & talent.

The biggest value in Xhai studios is our highly talented team, consisting of developers from various cultural and national backgrounds, each brings their own unique composition into project idea binding and development.

## Professional Staff

Our Developers and designers are winners of multiple individual honours and awards in their related fields with a minimum of 2-3 years of professional experience.

## Timeline Management

We use advanced online Project Management tools to keep track of the development cycle details to make sure we deliver our products on time.

## Technology Innovation

Our development cycle is done using latest softwares and technological advancements, which allow us achieve international quality standards with minimum resources.

**Yazrine Shahab**

## Legal Advisor

**Reza Al-Atas**

# Designing & Development

The best way to give the better service is to keep designing & developing.

## Designing

We recognise the fact that usability, functionality and visualisation are three of the most important factors when designing interfaces. Using this strategy, we work with you to ensure that your messaging and marketing goals are realized with the designs we create

## Development

Software development is a dynamic process. After working on hundreds of apps, we have learned that it is impossible to anticipate every scenario that may arise during development. Everyone has assumptions about how software should work, but assumptions need to be validated.

# OUR SERVICES

At Xhai Studios we work hard to develop our applications following the top level development standards, in both; design and coding perspectives. Our mission is to develop the projects that stand out and would compete with world class gaming, app and web plat-forms. We work hard and believe that in the near future the name Xhai Studios will be associated with top level quality and the highest standards.

## DESKTOP, MOBILE APPS & WEB

At Xhai Studios we also develop high standard, various small and enterprise level mobile & web applications, from simple “brochure” apps with few static pages to direct media sharing social networks to huge web complex application. Our application development cycle is focused on attention to details, where we put a lot of effort to push the capability, both of the of the app and the device to its maximum.

## BLOCKCHAIN

Xhai Studios team will help you bring your blockchain app/web idea to live. We are one of the leading blockchain development houses in Southeast Asia. Working on different blockchain projects like NEM, ZCoin, Hyperledger, and many more. We help you from idea realisation all the way to deployment. Contact us now for more information

## UI & UX DESIGN

User experience (or UX) design is dedicated to giving you the best possible experience when using websites, software and all kinds of services. We take into account best practices across a variety of fields like visual design, usability, information architecture and interaction design to create excellent user interfaces. Our interfaces are both pleasurable for users and give you competitive advantage.

# WE OFFER MORE QUALITY SERVICES WITH QUALITY MAINTENANCE

01

## DATABASE DRIVEN APP

In the event that you want to input lots of content in the app, you can choose to build a database driven customised app. If you have furniture business and you want to display each piece of furniture separately, this type of app can be perfect for you.

02

## BASIC TABLE FORMAT

The basic table format is easy to create and you can display essential information through this type of app. It is a simple app and offers smooth navigation to the user. The user can click on a particular heading or topic and get access to more topics under the genre.

03

## DYNAMIC APPS

Building an effective dynamic app depends on whether your site supports external information or not. Some social networking sites where users can express their minds belong to the dynamic category. Users can input information anytime and anywhere.

04

## CUSTOMIZED APPS

Do you want the user to input data in a pre-specified manner? In that case, you can build apps for custom utilization. Users should have the ultimate user experience through zooming options and effective touch gestures. This type of apps can allow users to create their own template, if they want.

05

## GAMES

We create various games for various platforms ranging from simple endless runners for mobiles to AAA Console/PC games. We put a lot of effort to make our games connect with the player on a personal level by using various techniques as blending multiple genres in one game.

06

## BLOCKCHAIN/WEB

Xhai Studios team will help you bring your blockchain app/web idea to live. We are one of the leading blockchain development houses in Southeast Asia. Working on different blockchain projects with NEM, ZCoin, Hyperledger, and many more. We help you from idea realisation all the way to deployment. Contact us now for more information.

# FUTURE PLANS

To become leaders in our industry and to strive for more success for 2019 & beyond.

At Xhai, we always invest in our talents and in our ability to do more. Through clear and strategic planning we are determined to excel in our field and to leave a great impact on the software industry. As every other company, we have ambitions and dreams to grow bigger and to be one of the most recognised software developers in Southeast Asia and the world as well. We believe that with a clear vision and hard work, anything is possible. Innovation and creativity are one of the things we focus on and it's fair to say that we will always invest in it because its creativity and innovation that make us do wonders. A talented and creative team is behind the magic we create.
